CHANGE IS SLOW, CHANGE IS DELIBERATE, CHANGE IS NOT EASY

2019-20

Slowly but surely the wheels of change start turning revealing the first glimpse of a new order. And of outcomes most desired. It is time to be glad for sure. But its also time for us to roll up our sleeves and redouble our efforts to ensure that the change is sustained.

We embarked on this journey knowing some of Challenges; today we know a little more and there is still so much more to learn. We saw a world that's seemingly oblivious to violence and forsaken against underprivileged society and especially children. Something had to be done and we became conduits of the change we wanted to see.

We Shradha Seva Sanstha (Trust) registered Non-Profit and Non-Government Organization registered as trust under Indian Trust Act 1882 Vide registration No. 2548 dated 09th December, 2019. This year learning at a faster pace and growing rapidly while keeping the child, down trodden and neglected society at the centre of everything we do. This has been our focus since inception. To succor in reinstatement of lost equality livelihood dignity, Justice, and equanimity in favour of persecuted communities had been our motto since the very beginning.

The sole meaning of life to serve humanity – Leo Tolstoy believing in humanity. Shradha is a Delhi (Burari) based Non-Profit Organization that has conceived with the idea of helping people who really need it. Operated by a bunch of meticulous people who are eager to serve the different Society. Shradha is meant to help people in different ways. The areas we focus on include health environment and education for poor child.

"Not every human in this world is bestowed with all gift that life has to offer while some people are born to Live a life of luxury, other's lack of it". Keeping this in mind we at Shraddha are dedicated towards helping and empowering the destitute children abandoned women neglected senior citizen and poor slum dwellers.

Shraddha is a small effort to tell the world that they are as much a part of the world as anyone else is. They don't deserve to be looked down with pity but to be respected and loved with dignity. And this is how this beautiful journey started. Though it wasn't easy journey so far.

Since 2019 (September) we have been vigorous in fostering public interest by invigorating community development and voluntariness alleviating certain practices that affects the ambience of our society. When we say "development " we mean to develop a better health, better environment and better life. We are focused at various areas of life like health and education that promote a better life for the people over looked by modern society. Development and edification of rural and neglected society has been our prime focus in which We worked upon supporting nurturing new Communities, women empowerment and child education especially girl child education. We have evolved with only objective of sincere selfless service to mankind.

We have work on numerous social welfare programmes like child labour education campaign, education for all, child education, women empowerment etc. We have emphasized more on awareness about human right, health education, poverty alleviation welfare and development of general mass importance of education and sanitation to spread awareness about this program. We have organized rallies, health camps, awareness campaigns, graffiti work, group meeting and numerous other activities for mass mobilization on personal

note, we have also Organized counselling services for the restoration of personal dignity.

There is long road ahead yet this gives us hope that we may be ready for the change and break the circle of silence surrounding the abuse of the neglected society and children, Be it development support or resource generation, advocacy or volunteer action, we work towards deepening our efforts to ensure a more robust and long last impact. So that the wheels of change carry our children into a future that bright and purpose full for all. The space is widening for working together with Communities Schools and making an indelible impact at combating the issue together. This is crucial and heart-warming. It has been a gratifying journey of discovery and further consolidation at Shraddha.

Today, It feels overwhelming to find ourselves coming this far for completing a very important milestone in the organizational history.

Now we have our footprint in Burari Village, Delhi. A grid a pipeline that we have laid, it is also for a lot of new and established ideas. We invite other also to use this strong network of local resources grassroots wisdom and people.

It is with great pleasure that I place before you this report of the activities of Shraddha Trust for the year-2019-20. It is a matter of great joy for us to share with you some information about our on going programme through Shraddha trust. We are successfully moving ahead in executing various leadership programmes and facilitating to build up leadership qualities among the marginalized and also for volunteers in various areas. We are also privileged to be a partner with you in carrying out different people oriented programme.

We are now in our 1st year of work as registered trust came into existence on 9th December 2019. We feel a great confidence in working towards our vision “where no child remains deprived of education and go to school”. It is a time to

renew the existing policies and strengthen our commitment to the development of an equitable just and peaceful society. Voluntary work was under taken with immense zeal and enthusiasm this year, community organization skill training etc. were given great importance and were implemented with fervor to enable people to live with dignity commendable efforts were made in ensuring people's participation as partners in development. This (ideology) permeated into every sphere of Shraddha Trust activities and programme. It called for an effective decentralization, not merely a transfer of financial resources but a change in focus a change where by people become decision makers and important actors in the process of development.

“Cleanliness is next to godliness. We can no more seek God's blessing with an unclean body than with an unclean mind. A clean body cannot reside in an unclean City”. Following Mahatma Gandhi's vision of a clean India on 2nd October 2019. Shraddha participated in "Swacch Bharat Abhiyan." November 2019 Shraddha Students Celebrated Dussehra, Diwali, Children day in their own way while saying "No to crackers" parents were invited on the special occasion. Merry Christmas being the favourite day for the children. Shraddha organized different competitions on the Occasion of Christmas. 72 participants were given certificates and medals. News were published in local Newspaper. Republic Day 2020 was celebrated with great pomp and show. Children from Shraddha presented Patriotic song and dance. Burari Vidhan Sabha MLA Sh. Sanjeev Jha was the Chief Guest of this occasion. He bless the children and distributed sweets. Local trip (picnic) was organized by Shraddha management on 18 February 2020. Students visited Bal Bhawan, Birla Mandir, Qutub Minar, India Gate, Children Park and Raj Ghat. Students enjoyed train ride in Bal Bhawan and Boat ride at India Gate. They were thrilled to see Raj Ghat this was their first experience to move out and see the historical monuments.

Many children in our service area are unable to take education, since their parents cannot afford to provide text books, school bags and other items their parents are mainly working in shops and establishment market yards, hotels or work as auto drivers, rickshaw pullers, vegetable vendors or domestic helper. We motivate their parents through counseling session to send their children to Shraddha.

Shraddha providing education and educational material to these children consisting of text books, bags, uniforms, shoes, sweater, pen and pencil and foods etc from the very beginning. As their was no financial support so Chairman and Founder decided to bear the expenses from their pension. There is pressing need to help more “poor and needy” children for continuing their education.

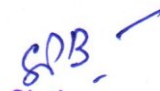

Everything we have achieved in 2019-20 would never been possible without your support.

There is so much we did in 2019-20. This annual report presents a glimpse into our growth and that of our friends as we all move forward.

We are aimed at bringing improvement for the burning issues like girl child education and poverty alleviation come forward and support us to set the trust for nation building by helping the downtrodden shine as smiling lives.

If you do believe in serving humanity come and join Shraddha..... Your support will boost Shraddha team.

Thank you for help us.
